Le Wagon
Full Stack Bootcamp
12/2019 - 3/2020

College of the Holy Cross
Bachelor of the Arts, English
8/2005 - 5/2009

———— Projects

Party Reel

A marketplace that connects contracted photographers with live music event attendees for personalized photography
⩾ Designed dismissable popover to improve UX on package selection page. Dynamic popover reviews package details with user
⩾ Utilized the Window interface sessionStorage property to store user's shoot time selection: ensures only photographers available to shoot at the time selected will appear on the following screen
⩾ Implemented Geocoder gem to identify user's IP address and compare it to the nearest music festival. User is presented with a relevant music festival based on their location upon accessing our web application

Taproot Foundation

Taproot Foundation connects nonprofits and other social change organizations with skilled volunteers through pro bono service
⩾ Partnering with organizations to provide programming assistance
⩾ Limiting availability to projects which are having a direct societal impact (COVID)

———— Experience

Phreesia - SaaS Application Vendor

Implementation Consultant: Health Systems (12/2018 - 6/2019)
⩾ Collaborated interdepartmentally to solve customer issues and requests for feature enhancements
⩾ Led development of technical specifications for use cases based on medical practice staff feedback

Vital Score - SaaS Application Vendor

Director, Product & Strategy (6/2017 - 12/2018)
⩾ Developed and managed senior client relationships with analytic feedback and strategic guidance
⩾ Led regular application development sprints for continuous enhancements based on customer feedback and internal goals
⩾ Utilized patient data analytics to inform and guide CTO and Development team during hackathons for new use cases

FTI Consulting

Consultant: Healthcare Process Improvement (9/2012 - 11/2016)
⩾ Project managed hospital revenue cycle initiatives focused on enhanced process efficiencies
⩾ Worked with hospital finance leadership, Chief Medical Officers, and clinical staff to collaboratively identify process challenges and develop improvement opportunities
⩾ Developed implementation plans for revenue cycle processes which included training, communications, and key performance measures
